### Profile

---

**BSc Computer Science** graduate actively seeking exciting opportunities in the tech industry. I bring a solid foundation in computer science, along with hands-on experience in developing **cross-platform mobile applications** using **Flutter, Dart, and Firebase**. Eager to contribute to innovative mobile projects where I can apply and grow my skills.

### Skills

---

**Programming Languages:** Dart, JavaScript, HTML, CSS

**Frameworks & Libraries:** Flutter, Bootstrap

**State Management:** Provider, Riverpod

**Backend & Database:** Firebase, REST API

**Development Tools:** Git, GitHub, Postman, Figma, Android Studio, VS Code

**Office Applications:** Microsoft Office Suite, Excel, PowerPoint

**Soft Skills:** Team Collaboration, Leadership, Time Management

### Education

---

**Bachelor of Science in Computer Science** 2020 – 2023

*Marthoma College Of Science And Technology*

**Higher Secondary Education** 2018 - 2020

*Vivekananda Higher Secondary*

### Experience

---

**Flutter Developer Intern, SoftZane Solutions** 2024 - 2025

- Learned the Flutter framework and Dart programming to create cross-platform mobile applications.

### Projects

---

#### KODPAK

- Worked as a front-end developer to design, develop, and deploy a mobile app for the Kottayam District Kuwait Pravasi Association
- Collaborated with back-end developers to integrate APIs and ensure seamless real-time data synchronization
- Implemented secure user authentication to manage member access
- Designed a responsive UI, optimized for a wide range of screen sizes and devices
- Integrated QR code scanning functionality enhancing user convenience and operational efficiency

## **Frame Flick**

GitHub

- Designed and developed a mobile application for photographers to share images, connect, and engage with other users in real time
- Utilized Firebase as the backend to implement authentication, real-time chat, cloud storage, and Firestore database for seamless data handling
- Enabled users to upload, edit, and delete posts, update profiles, and manage personal content
- Integrated commenting and messaging features to encourage users and building a community within the app.
