## SUMMARY

I am a recent Computer Science graduate from Kerala University with a passion for app development. During my internship at Softzane Solutions, I gained hands-on experience in Flutter, enhancing my mobile app development skills. With a problem-solving mindset and strong work ethic, I am eager to contribute to innovative software projects and add value to your team.

### projects

#### KODPAK

Worked as a front-end developer to create and deploy a mobile app for the Kottayam Kuwait Pravasi Association, now available on Play Store.

#### NETFLIX CLONE :

Developed a Netflix clone that fetches data from the TMDB API, enabling users to browse and search across various categories.

#### WALLPAPER APP:

Designed and developed a wallpaper application that fetches images from the Pexels API. Users can search for images by category, view them, and set wallpapers for both the lock screen and home screen.
