TECHNICAL SKILLS

- Flutter • Dart • Firebase • Riverpod • Provider • HTML • CSS • Javascript • Bootstrap • Github
- Postman • Figma • REST API • Responsive Design

WORK EXPERIENCE

FLUTTER INTERN

June. 2023 – Present

Softzane Solutions

- Learned the Flutter framework and Dart programming to create cross-platform mobile applications.
- Gained hands-on experience with state management techniques.
- Explored and implemented REST API integration to develop dynamic applications.

PROJECTS

KODPAK :

- Worked as a front-end developer to develop, and deploy a mobile app for the Kottayam District Kuwait Pravasi Association, now available on the Play Store.
- Collaborated with backend developers to integrate APIs and ensure seamless data synchronization.
- Implemented responsive UI components to enhance the app's user experience.

NETFLIX :

- Developed a Netflix clone mobile application using Flutter, and Riverpod providing a seamless user experience for browsing and searching across various movie and TV categories.
- Integrated the TMDB API to fetch real-time data, allowing users to view movie titles, ratings, descriptions, images, and trailers.
- Responsive user interface that mimics Netflix's layout

WALLVERSE:

- Developed a wallpaper app that fetches high-quality images from the Pexels API.
- Users can search for images by category and view them in full-screen mode.
- Allows users to set images as wallpapers for both lock screen and home screen.
