PROJECTS

KODPAK

Worked as a front-end developer to create and deploy a mobile app for the Kottayam Kuwait Pravasi Association, now available on Play Store.

NETFLIX CLONE

Developed a Netflix clone that fetches data from the TMDB API, enabling users to browse and search across various categories.

WALLPAPER APP

Designed and developed a wallpaper application that fetches images from the Pexels API. Users can search for images by category, view them, and set wallpapers for both the lock screen and home screen.

UI DEVELOPMENTS

Created multiple UI versions of apps to improve my skills in UI building, which are available on my GitHub.
